

LUNACY

129 Deck 129 Base

2008 Slingshot Lunacy... Get Mental!

Overview

Slingshot is proud to introduce its first ever "pro-model" board appropriately named the Lunacy with reference to how insane Ruben Lenten rides!

After sampling the effect of Future Response Technology* used in the Slingshot wakeboards, Ruben Lenten knew he needed to incorporate this feature into his next kiteboard. To date, Chief Board Designer John Doyle and Ruben Lenten have co-developed the ultimate kiteboard for hard core freestyle riding and competition and the ONLY kiteboard equipped with FRT*.

The Lunacy is a super aggressive twin tip with a wide shape, sharp rail and loads of tip power. What that all means is that it has more drive and has massive pop!

The NEW Slingshot Lunacy made for the likes of the most hard core freestyle riders like Ruben Lenten. Leave your excuses at home!

Key Highlights

- FRT*: Future Response Technology: flex, rebound, energy and pop
- FRT* core: light weight, strong
- Twin tip: made to be ridden both ways
- Sharp square tip angle: loads of "hook up"
- Wide shape and lots of tip power: more pop and overall drive
- Ideal for flat water freestyle riding.
- Parabolic rails: more power with an aggressive tip and tail bit
- Single concave and constant curve rocker: added stability
- Made in the USA: quality assurance #1!
- Slingshot Legendary Construction: bomber quality
- Lifetime Rider Hotline Support membership
  tel. 1-509-427-4950 / email::riderhotline@slingshotsports.com
