

## PRESSRELEASE AUGUST 2006

### JAIME PRO 07

New School Board

Sizes:

S: 125cm x 37cm

M: 128cm x 38,5cm

L: 131cm x 40cm

Weight:

S: 2,1kg

M: 2,2kg

L: 2,3kg

Fins: 4x5cm Saber Fins

**FAST RIDING AND GOOD FOR POWER MOVES**

**EASY HANDLING AND SMOOTH LANDINGS**

**ASYMMETRICAL CONCAVE FOR MOST EDGE GRIP**

**SHAPED RAILS AND ASYMMETRICAL OUTLINE FOR SMOOTHER CARVES**

**MEDIUM FLEX**

For 2007 we have completely redesigned the entire Jaime Pro Model line. Due to Jaime's popularity, we felt it deserved to reach a much wider audience. The new asymmetrical outline and bottom concave now offers something for everyone.

The relatively straight heel-side edge delivers the classic freestyle performance you would expect from the Jaime; speed, pop, upwind and grip. The new asymmetrical concave is perfect for choppy conditions and reduces sticking and splash on the rider. The rounder more forgiving toe-side edge is perfect for carving turns.

"We wanted to design a board that would work for a wider range of riders without compromising performance. I'm confident that this board will suit almost any rider in almost every condition. I'm super stoked with this new concept!" -Jaime Herraiz

## 5'5" ROCKET FISH

Performance Power Surfing

165cm x 44cm

**STRAPED FULL POWERED WAVEACTION**

**ALL CONDITIONS**

**FULL CONTROL FOR WAVE BEGINNERS TO PROS**

The 2007 Rocket Fish is the latest in the development of high performance surf designs. This design is the exact design that many of the top pros are currently riding. The 5'5" has a very large wind range, rider size range, and rider ability range. This board works very well when powered up as well as in light winds. The design has been proven to work well for riders from 120 to 215 pounds. The greatest aspect of this design is the fact that a guy who has no wave experience can jump on this board and have a great time as well as the seasoned surfer who cranks a hard bottom turn and smashes the meanest sections.

## 5'10" ROCKET FISH

Heavy Riders and Unstrapped

178cm x 49,5cm

**PURE SURF FEELING**

**STRAPED AND STRAPLESS**

**SMALL TO MEDIUM WAVE RIDING**

**SMALLER KITES - MORE VOLUME**

The 5'10" Rocket Fish is the new light wind king. Tested in light wind locations around the world, the 5'10" is a proven light wind machine.

The 5'10" 's high volume is perfect for small wave free-surfing. Incredible tricks like top turn handle passes, off the lip variials and tweaked airs in small mushy surf are now a reality. The wide outline and lower rocker line contribute to the great light wind performance and possibility of using smaller kites. This design not only works well in light wind but also is a great performance board for the larger rider. The 5'10" can also be ridden strapless for total freedom of movement and exploring the boundaries of the new school strapless movement.
