RANGER

OVERVIEW

The NEW Slingshot Ranger is a 4 line foil designed for the intermediate to advance snowkiter who value characteristics such as de-power ability, performance, durability and convenience. The NEW Ranger meets all of these needs at an affordable price. The Ranger is ideal for snowkiters who desire, predictability, smooth power, quick turning and stability. The Ranger represents the best value in snowkiting for the dedicated snowkiter.

As with all Slingshot kites, the Ranger is built using state of the art manufacturing techniques and light weight materials. The Ranger control bar includes the Lock-N-Load chicken loop, rear line brake/relaunch webbing, additional safety release on the Quick Release Surefire Bungee, colored Firewire kite lines, easy handling leader lines and mega traction bar grip.
