Introducing the **ION Neo Shelter Jacket 2,5**, the **ION Ball Slapper Shorts**, the **ION Ballistic Boots 4/3 and Shoes 2,5** and the **ION Neo Squad Beanie 2,5**.

The **ION Neo Shelter Jacket 2,5** can be worn on the Beach, on the Streets and even on the Water. If you are not out on the water, you can wear the Neo Jacket on top of your wetsuit, or just on the walk to your favorite bar. Through an opening on the front side the harness hook can still be used while wearing the jacket. Windsurf and Kite Instructors appreciate this feature.

D_Fence Nylon Jersey is used for the outside. ION Hot-Stuff material on the inside keeps you warm and cosy. Our Team loves it!

Sizes: 48/S, 50/M, 52/L, 54/XL

Ever pulled a mean trick and landed hard on your family jewels...? Then you gotta know the ball slapper. So here is the new **ION Ball Slapper Shorts** with crotch protector crash_padz. The crash_padz are removable for those with balls of steel...

Completely made of BiPoli Jersey (100% antibacterial Polypropylene), quick drying, super soft and warm inside, robust outside surface, super stretch, snug fit.

Sizes: 48/S, 50/M, 52/L, 54/XL

Our **ION Ballistic Boots 4/3 and Shoes 2,5** are unique on the market and for sure no normal booties as you know them. With our new Aramid Protection Rubber Sole no sea urchin, sharp coral reef or other sharp objects can cut through anymore and cause painful injuries. Perfect stability and wearing comfort as well as outstanding barefoot feeling is what you get. A super soft back part of the boot with a finger loop will make it easy to get in and out.

Sizes: 35/4, 36/5, 37/6, 38-39/7, 40-41/8, 42/9, 43-44/10, 45-46/11, 47-48/12

The **ION Neo Squad Beanie 2,5** is a super cool wind and water proof neoprene beanie to keep your head warm on the beach and also on the water. With the help of the Loser_Leash you will no longer lose your beanie on the water. Just tie the elastic string loop to the zipper pull webbing of your wetsuit, that's it. The outside material is D_Fence Nylon and on the inside HotStuff is used.
